

Dear reader,

Check out three of our most recent research updates below.

1. Drinking Age: [41 States That Allow Underage \(under 21\) Alcohol Consumption](#)

10 US states allow underage consumption of alcohol at restaurants and bars, if the drinks are provided to the minor by a parent or legal guardian. Learn more on our state by state guide to the eight different exceptions to the minimum legal drinking age.

2. Vaccines: [English Doctor Who First Linked Vaccine with Autism \(in 1998\) Has Medical License Revoked](#)

The English doctor who initiated public concern about vaccines potentially causing autism had his medical license revoked for "dishonesty and irresponsibility." Dr. Wakefield and his supporters maintain the validity of his research. Read more about this incident and whether or not children should receive vaccines at all.

3. Euthanasia: [Updated Top 10 Pros and Cons: Should euthanasia or physician-assisted suicide be legal?](#)

Read our updated 10 best pros and cons in the debate with statements from the ACLU, the US Supreme Court, the US Conference of Catholic Bishops, the *Los Angeles Times*, professors, physicians, and activists from groups such as Not Dead Yet and Exit International.

Please help [support us in any one of seven different ways today](#).

All supporters are recognized on the ProCon.org Donors page (unless you prefer anonymity) and, if you donate \$100 or more, we'll send you with our thanks, one of our cool, new ProCon.org caps.

As always, thank you so much for your support and continued interest in the nonpartisan research at ProCon.org.

Sincerely,

Kamy Akhavan
