

Dear reader,

We are proud to announce our 38th and 39th ProCon.org issue websites. Read the pros and cons of [Ronald Reagan's presidency](#) and [Bill Clinton's presidency](#), then decide for yourself whether they were good presidents.

There are many other interesting content updates highlighted below as well.

I'd like to give a very special thanks to Alan Thicke - actor, songwriter, and Wednesday night's celebrity contestant on VH1's *Don't Forget the Lyrics* - for selecting ProCon.org as his charity of choice and winning \$5,000. Thank you, Alan!

1. NEW ProCon.org Website! [Was Ronald Reagan a good president?](#)

Reagan served as the 40th President of the United States from Jan. 20, 1981 to Jan. 19, 1989. His supporters point to his accomplishments, including stimulating US economic growth, strengthening national defense, revitalizing the Republican Party, and ending the global Cold War. His detractors contend that Reagan's poor policies, such as bloating national defense, drastically cutting social services, and making arms-for-hostages deals, led the country into record deficits and global embarrassment. ProCon.org's 38th website explores the pros and cons of whether or not Ronald Reagan was a good president.

2. NEW ProCon.org Website! [Was Bill Clinton a good president?](#)

Bill Clinton served as the 42nd President of the United States from Jan. 20, 1993 to Jan. 19, 2001. His supporters contend that under his presidency the US enjoyed the lowest unemployment in recent history, low crime rates, and a budget surplus. His detractors blame his policies for the financial crisis that began in 2007 and point to his scandals and impeachment by Congress. ProCon.org's 39th website explores the pros and cons of whether or not Bill Clinton was a good president.

3. Concealed Handguns: [Should responsible adults have the right to carry a concealed handgun?](#)

Read pro and con arguments from Chris Cox of the NRA, Kristen Rand of the Violence Policy Center, The Brady Campaign, Professor James Q. Wilson, Professor John Lott, Sen. Charles Schumer, and other scholars, politicians, and advocacy organizations.

4. Milk:

- [State by State Dairy Cow Emissions: The Fart Chart](#) - All 50 US states are compared by the amount of greenhouse gases their dairy cows emit through enteric fermentation (aka farts and burps). The Food and Agriculture Organization of the United Nations reported in 2010 that the global dairy cow sector emits 4% of total

[Subscribe](#) to our email list

- [Is it misleading to label milk as free of the artificial growth hormone rBST/rBGH?](#)
- [Is there any safety or nutritional difference in milk from cows supplemented with growth hormones such as rbST and milk from cows not supplemented with hormones?](#)

5. [Teacher and Librarian Two-Minute Survey](#)

Teachers and librarians, please take our 2-minute survey so we can learn how to make our sites more useful to educators and students.

ProCon.org would like to thank one of our sponsors, Freeman and Sear (online at www.freemanandsear.com), a respected dealer of ancient coins and antiquities, for their three months of sponsorship.

If you or a business you know would like to sponsor a ProCon.org website, please read our [sponsor information](#) sheet and get in touch with us.

Please consider making a donation to ProCon.org today and help keep critical thinking alive. You can [support us in several different ways](#). All donors are recognized on the ProCon.org Donors page (unless you prefer anonymity) and, if you donate \$100 or more, we'll send you a cool ProCon.org cap, bookmark, bumper sticker, and our sincere gratitude.

Sincerely,

Kamy Akhavan

Managing Editor, ProCon.org
