Energy Resources

For this project, each group will research the basics of a different type of energy resource. The group will then present their findings to the class and teach the class how their type of energy works. For instructions, please see the document at the bottom of the page.

Internet Resources:

Starting Point....all groups should start at www.altenergy.org and go from there. It has a great description of all of the different types of energy.

Additional Websites:

Procon.org - A great website with helpful questions and answers about all of the different types of energies that we are studying. <http://alternativeenergy.procon.org/>

Union of Concerned Scientists - http://www.ucsusa.org/clean_energy/

Alternative Energy News - <http://www.alternative-energy-news.info/>

US Department of Energy - <http://energy.gov/science-innovation/energy-sources/renewable-energy>
