## Health IV B : 2(A) - Counter

Section:

Join this Section

My mission is to guide my students in a holistic way, to make positive contributions to our society. I will motivate my students to be good role models, by setting a good example. I will encourage my students to take charge of their health and well being. I will expect them to set high standards for themselves and keep trying when they are not successful. I will always support them and expect them to take personal responsibility for their actions, instead of making excuses.

### Calendar
