### Immunization Pros and Cons What would you do?

Part Two

Where I Stand.....

I choose to vaccinate my kids. When Riley was born, my doctor recommended it and I didn't question it. I hadn't heard many negative affects of vaccines and decided the pros (keeping my child and those around him safe) outweighed the cons. When Regan was born I did more research and felt vaccinations were very safe and effective. I will continue to vaccinate myself and my children.
