Time Line Project

Here are the directions for your Time Line Project:

1. You must find 5 important events from the year you were 11 years old and answer briefly the Who/What/Where/When/ and if possible the Why/How of the event(this may be the most difficult to find in the time provided, your opinion as to why/how is also acceptable).
2. For each event you must print a picture that you will paste on your time line.

3. For 2 of the events you need to go more in depth in your research and find out some additional interesting facts to share about it.

4. For at least 1 or the 2 events you did more in depth you MUST talk about your personal reaction to the event.

5. You will need to make a physical time line that you will tape up on the white board when giving your presentation that lists your events in order during your year.

Here are examples:

Cyber Monday Research Report

Alone or in pairs you will need to research the BEST Cyber Monday deals.

You need to find 3 items you believe to be the best deals.

You will include the details of the items (picture, website, features, shipping & tax fees, and of course original price & sale price).

You will make a handout for the other students that include all this information and will have the total for the amount of money you would save if you bought the items you have listed.

Make your handout interesting and easy to read. Copy and pasting information is fine but make sure you have no spelling or grammar errors (I will be looking MORE at this handout than your discussion of it).

As always ask me if you need more clarification.

Halloween Horror Flicks Links:

After watching the following 4 clips try and answer these questions:

1. Have you seen any films like these before?
2. What genre do they belong to?
3. How do you explain their popularity?
4. What do the film excerpts have in common?
5. What characteristics of the horror genre do you notice in these clips?
