**1. How did you hear about ProCon.org?**

Teacher/Librarian

**2. What grade level do you teach or serve?**

High School (9-12)

**3. Have you referred students to ProCon.org or used ProCon.org in your instruction?**

Yes

**4. What's your school?**

ProCon.org is a 501(c)(3) nonprofit public charity, and we are supported by foundations and individual donations. Having more and more schools use ProCon.org helps us show potential donors that our educational resources are increasingly popular and useful. Please help us by filling out the information below.

Oh, and don't worry. We won't mail you stuff or call you or share your info with anyone who might. We just want to know which schools have teachers and librarians that use ProCon.org.

My school: - Rushmore Academy

My name: - Corrinne Sully

My title - Instructional Assistant

My city: - Rapid City

My state  
(or country if not in the United States): - South Dakota**5. Did your students find ProCon.org useful?**

Yes

It gives them better insight with documented data to backup or tear down their own theories on important issues.

**6. Do you think using ProCon.org helped to improve your students' critical thinking skills?**

Yes

After reading both sides of topics, students tend to rethink their original opinion and either use the data to support their original idea or, in some cases, change their attitude about a subject.

**7. How do/did you use ProCon.org in your classroom or library? Details appreciated.**

*If you have a link to your lesson plan or reference to ProCon.org, please include it below.*

This is a very effective website when we have a "current events" discussion. My classroom is an alternative setting and engaging the students in rational discussions about current events tends to improve their critical thinking/reasoning skills, their ability to express their opinions verbally and their overall knowledge of the world around them.

**8. What subject(s) do you teach?**

Mathematics

While my personal area of expertise is mathematics, the students in my classroom study all high school subject areas and I engage in the learning of all subjects.

**9. Would you recommend ProCon.org to teachers or librarians?**

Yes

**10. Would you like to sign up for our free email updates?**

You'll get 1-3 emails per month highlighting our latest research, and you can unsubscribe anytime. Your email address will remain private, and we will not share it with or sell it to any third parties.

Yes, please.

corrinne.sully@k12.state.sd.us

**11. Last one. Do you have any additional comments or suggestions for us?**

This is normally sent out to me by my administrator, but I would much rather just get the emails. You have done an awesome job and cover the topics well. Thanks for helping to educate the future of the world.
