Welcome to the Heron Homework Page!!

*Updated daily by 4PM

Progress Reports for the 2nd quarter will be coming home this Wednesday in Back Pack Express. Please review with your child, sign the reflection, and have your child return it to his/her home room teacher by Monday, January 3, 2011.

Hérons can "strive for the 5" in homework by taking the skill and concepts we are exploring in class and extending that learning to real-world events and situations. This may be in the form of research done on-line, something found in a newspaper, or elsewhere. A student may create, construct, write, or otherwise communicate this extension to earn a 5 for that night's homework. More involved projects may earn a 5 for more than one night's work.

Week of 12/20/10 - 12/24/10

Table with 6 columns: Day, ILA Chaffee, ILA Millard, Math Whitman, Science Balnis, and Social Studies Clark. Monday row details assignments for each teacher.
