Dear Kamy,

On behalf of the students attending The Junior Statesmen Foundation's Symposium on Media and Politics, I would like to thank you for participating as a speaker this year! Your connection with the students was recognizable, and you clearly had them captivated!

As you know, our mission is to empower youth through leadership, debate and engaging with other leaders in their fields - Your time and energy spent helping them understand how to approach thinking critically about issues and how to break down associated arguments, was very much appreciated. Your dynamic presentation and insight provided the backdrop for a great deal of discussion throughout the rest of the Symposium!

We hope you enjoyed interacting with our students as much as we enjoyed having you. Some of the students wanted to thank you personally and I have enclosed notes from them.

Sincerely,

Tracy Poindexter
Symposium Program Director
