ProCon Takes a Shot at Youth Violence

By: Tiffany

Hello there! If you are new here, you might want to [subscribe to the RSS feed](#) for updates on this topic.

One of gamers' touchiest subjects has been added to a website that claims to give equal time to both sides: ProCon.org.

ProCon has given the topic of "Do violent video games contribute to youth violence?" its own page at <http://videogames.procon.org>. There, interested parties can read a list of pros and cons as well as read a complete background on the topic. Each tidbit of information is accompanied by a proper citation where readers can find the relevant information.

One part of the website allows its readers to voice their opinion. At the moment, only unclear and con statements (as in, "No, video games do not cause violence") reader responses have been posted. In addition, videos and graphics are available illustrating the controversy.
